

one URL for each notebook

The screenshot shows the RCloud web interface in a browser. The address bar contains the URL: `http://10.211.55.4:8080/edit.html?user=cscheid&path=papers/memorability/supplemental`. An arrow points to this URL with the text "one URL for each notebook". The interface displays the RCloud logo, a sidebar with a file tree, a central editor showing R code for a notebook, and a right-hand pane with file assets.

Workflow: Creating a notebook

one URL for each notebook

The screenshot shows the RCloud web interface in a browser. The address bar contains the URL: `10.211.55.4:8080/view.html?user=cscheid&path=papers/memorability/supplemental`. An arrow points to this URL with the text "one URL for each notebook". The interface displays a faceted plot showing task performance across different conditions and visualization levels. The plot has a y-axis labeled "Task" and an x-axis labeled "accuracy".

Workflow: Viewing a notebook
